## BUSH HAMMER EFFECT

It **makes anti-slip marble**, granite and natural stones surfaces. It removes glues, paints and epoxy resin. It shatters thick resins hardly removable with other type of tools. It creates the **"exposed face effect"** on precast panels. It bush hammers all type of surfaces. Prepares the surface for resin application. Bush hammer used in combination with diamond tools, leave the surface perfectly smoothed and to the desired conditions of roughness according to the next required treatment.
