

JUMPY YELLOW

Resinbond diamond discs for polishing marble floors. They leave a very high finish. Resistance and performance even on not levelled surfaces.

USE:

Jumpy Yellow can be used with water or during dry processes.

MARBLE FLOOR

COMPATIBILITY:

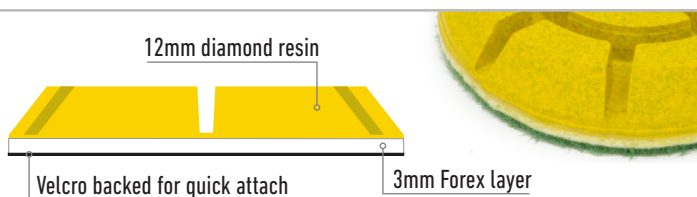

FLOOR GRINDING MACHINES

SINGLE DISCS MACHINES

TECNOLOGY:

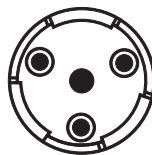

Jumpy Yellow are the perfect combination of resin with abrasive powders and superior diamond powder. Specific formulations developed to optimize the polishing of different materials.

The tooling design with sloping edges effectively prevents bumps and breakage. It also reduces the effort of the machine to slide the tool over the obstacle and continue with the polishing work.

100% effective structured abrasives from the beginning. The linear micro-structure defined in the upper part of the product, allows a perfect job from the beginning, no need to prepare or open the tool previously.
