TECNOLOGY:

Condor Universal are the perfect combination of resin with abrasive powders and superior diamond powder. Specific formulations developed to optimize the polishing of different materials.

The tooling design with straight edges makes them more aggressive and performing, the whole surface of the tool works on the floor.

100% effective structured abrasives from the beginning. The linear micro-structure defined in the upper part of the product, allows a perfect job from the beginning, no need to prepare or open the tool previously.
