

HYPER KING PADS

HYPER KING PADS are Special Floor pads with the impregnation of diamond abrasive for dry restoration and maintenance of polished concrete and terrazzo floors.

USE:

Hyper King Pads must be used during dry processes with high speed machines

CONCRETE FLOORS

TERRAZZO FLOORS

TECHNOLOGY:

Thanks to the new HYPER KING PADS "abrasive diamond discs technology", to achieve a polished concrete floor has never been so easy. Designed to revitalize the shine and the gloss of old and new dulled concrete surfaces. Use the HYPER KING PADS discs is the easiest and fastest way to turn any trowelled industrial concrete floor into a beautiful, durable, stain-resistant, easy to clean and mirror polished surface.

PROPERTIES	VALUES
Thickness	2,5cm
Fiber type	100% recycled polyester fibers, natural fibers
Binding system	Mixture
Application	Spray
Abrasive	Diamond powder

MACCHINE:

BIG GRINDERS

SMALL GRINDERS

HIGH SPEED BURNISHERS

SINGLE DISCS

AVAILABLE MEASURES:

The Hyper King Pads are available in sizes from ø100mm (4") to ø710mm (28").

4" - 100MM	11" - 280mm	20" - 510mm
6" - 150MM	16" - 406mm	21" - 530mm
8" - 200MM	17" - 430mm	24" - 610mm
9,5" - 240MM	18" - 450mm	28" - 710mm

BEFEFITS:

The Hyper King Pads are recommended for HS machines, remove scratches, dullness, and polish concrete floors.

GRIT:

Gli Hyper King Pad are available in grit sizes
