PAD

MADE IN ITALY

WHY MELAMINE PAD CLEAN BETTER?

Melamine foam is a foam-like material consisting of a formaldehyde-melamine-sodium bisulfite copolymer. Melamine foam is the active component of a number of abrasive cleaner sponges. The open-cell foam is microporous and its polymeric substance is very hard, so that when used for cleaning it works like extremely fine sandpaper, getting into tiny grooves and pits in the object being cleaned. Rubbing with a slightly moistened foam, it remove otherwise "uncleanable" external markings from surfaces. For example, melamine foam can remove crayon, marker pen, adhesive residue and grease from any surfaces.

HYPER GRINDER MELAMINE FLOOR PADS are specially designed for use on ceramic tiles, engineered tiles, marble, limestone, concrete, vinyl and pvc floor and other porous floor surfaces. These highly effective pads make light work of ingrained dirt, and unsightly scuff marks. Environmentally preferable - no cleaning additives or chemicals required. They clean away most dirt and marks with water alone.

We are aware of the importance of always having a clean and well maintained floor. The **Melamine Pads** allow you to clean the floor in an effective, ecological and economical way without adding any chemicals or additive. **Melamine Pads** is available in all sizes for use with both single disc and scrubbing machines. **NEEDS WATER ONLY !**

BENEFITS

- Can be use whit rotary scrubber and ORBITAL MACHINES.
- Cleans up to 5 times more floor than other melamine pads currently on the market.
- Extraordinary results of mechanical cleaning.
- Enhanced gloss and shine protection.
- Reduction of expensive background cleaning.
- The floors are cleaned with a minimum of labour and time.
- Environmental benefits thanks to a considerable reduction the use of chemicals.
- Preserve the value of the floor that remains as new forever.
- Usable both with scrubber-driers and with single-disk machines.
- Cleans up to 1000 m² for single disc cleaning machines and 10,000 m² for scrubber driers.
- Fits all standard pad holders.
- The durability of the Melanin pads last longer than those normally available on the market.

Where to use the Melamine Pads?

- Marble and terrazzo • Klinker and ceramics • Engineered stones • Homogeneous tiles
- PVC / Vinyl / Linoleum • Epoxy resin floor • Superconcrete® - polished concrete
